Introduction

Exhibitions are one of the best ways to showcase your company and its product range whilst reaching your target audience with face to face interaction.

Your stand will need to make an immediate impression and catch the attention of passers by whilst at the same time stand apart from your competitors.

Modular exhibition stands can be on the grandest scale or simple in their design – either way they can be impressive yet cost effective. The beauty of Modular stand designs is that they are flexible, re-configurable and most importantly re-usable, meaning you have total freedom to re-create your existing stand to use time and time again whilst maximising your ROI.

Build a wide range stand styles using a choice of Linear/Vector, Vector Lite, T3, Arena 4 Gantry, Panel and Pole, Formulate and portable display products.

Wide Format Printing Services there to support you all the way:

From help with your artwork to printing and finishing, we offer a full printing service and aim to achieve the perfect balance between quality, service and price.

Whether you need a complete range of print services or help with specialist textile fabric printing, we can help deliver a speedy and competitive solution.

Choose from a wide range of printing media from banner vinyl and flag knit to specialist canvas fabric and back lit transparency

3D design service

We can even make wooden crates to protect your investment.

3D DESIGN SERVICE

You can choose from a wide selection of stand designs throughout this brochure, or talk to our 3D Design team who will work with you to create a stand that will impress everyone who sees it.

DESIGN BRIEF

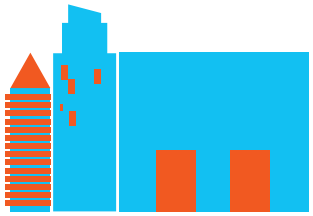
From flash of inspiration to fully specified designs we can design, quote and build your display solution from anything you want to throw at us.

QUOTES & CONCEPTS

Once we've received your design brief it will be assigned to one of our experienced design team, who will craft your solution to your exact requirements using the latest 3D design software.

We'll then aim to get your design and quote back to you as soon as we can. If you need it quicker please let us know and we'll try our best to fit in with your time scales. We want to ensure that you love the solution we provide, so if it's not quite right we'll change it.

120% COMITMENT TO YOUR PROJECT



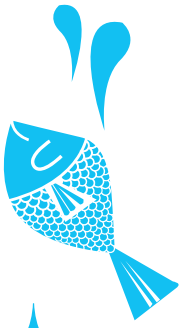
PRE-BUILD

Now you've placed your order, we manufacture your stand right here in the UK. If the design requires, or you order graphics, we pre-build your solution in our dedicated pre-build area.

This way we can make sure everything works perfectly. We also offer you the opportunity to come and see your stand being pre-built. This allows you to meet our designers, ask questions and physically see your stand as you sign it off.

INSTALL & DISMANTLE

Setting up exhibitions can be daunting enough without having to worry about the hassle of shipping your stand to the location, setting it up and dismantling it.



3D design service

CREATIVE JUICES 100%

WHAT WE DO

We understand that sometimes being different is crucial, we also know that a square peg doesn't fit into a round hole, which is why we offer a design service to all of our customers.

Our 3D team design standard and bespoke display solutions from an extensive parts library to fit your specification. From a one off literature holder to large exhibition stands our mission is to supply you with exactly what you need.

However to gain the best solutions tailored to your requirements we need as much information as you can supply. If you're still feeling a little bit lost, why not give us a call and speak to one of our friendly design team direct?

4 MONTHS DEVELOPMENT IN OFF THE SHELF STAND DESIGNS

60 tonnes OF EXTRUSION USED BY 3D DESIGN IN THE LAST 12 MONTHS

That's where we can help! Let us look after your exhibition stand from initial designs to packing up at the end of the show. The new install & dismantle service takes care of the logistical side of attending exhibitions.

CUSTOMER SATISFACTION 100%

ONGOING SUPPORT

We thrive on feedback so your support doesn't stop once you've taken delivery of your solution. If you have any comments or questions please contact us.

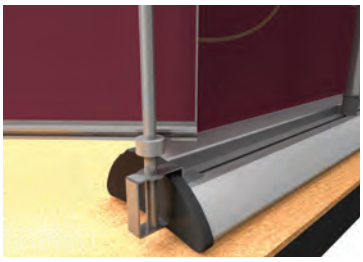
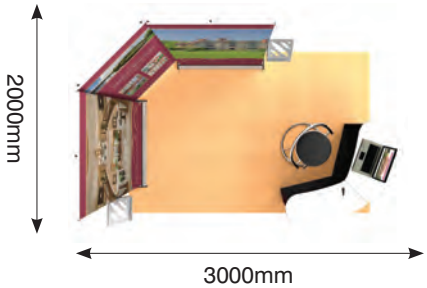
<9m² stands

- Standard configurations up to 9m²
- Packed in bags or crates
- Self-assembly

>0.25 day

>2 people





Cost effective and interesting way of creating an exhibition stand using Linking banner kits.

Create a large area for your message at a fraction of the cost using two Premium roller banners with a suspended graphic in between.

Complete the area using an Oyster case which converts into a large table top counter with storage and shelving within.

Frame construction	Graphic materials
2 x Barracuda 800mm, 1 x Banner Linking Kit, and 1 x Oyster Case	Polyester Hybrid Pop-up PVC

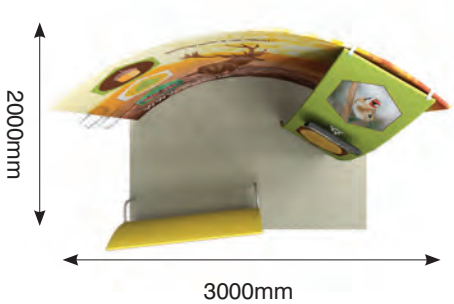
> Assembly time
Less than 0.25 day

> Based on 1 person assembly

KG Hardware weight: 56kg approx

Hardware cases: 1 x 56kg Oyster moulded case

*Based on Barracuda banner



Formulate is a quick and easy stand system that looks spectacular with its sweeping lines and large visual graphic area.

The back walls are aluminium structures which are easy to assemble with fabric graphic socks that fit snugly around the frame.

Add Funky shapes that clip onto the back wall with specially designed clamps, add a smaller formulate table top version for further detail. With exciting imagery these stands can really give the wow factor for minimal investment.

All frames can hold optional low voltage lighting and all are supplied in a carry bag for transportation.

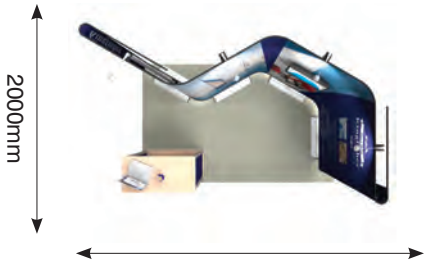
Frame construction	Graphic materials
1 x Horizontal curve back wall, 1 x Ladder funky shape and 1 x Table top	Fabric

> Assembly time
Less than 0.25 day

> Based on 1
person assembly

KG Hardware weight: 18kg approx

Hardware cases: 1 x 7kg, 1 x 6.5kg, 1 x 4.5kg



Stealth is a modular, linkable banner system designed to create seamless graphic displays, providing a highly portable and easy-to-use backdrop for all types of applications.

Link four banners together with magnetic strips and joining panels, position at different angles to suit your space.

Graphic panel can be cut out to support tv monitor, attach lights overhead. Complete display with counter to welcome your guests.

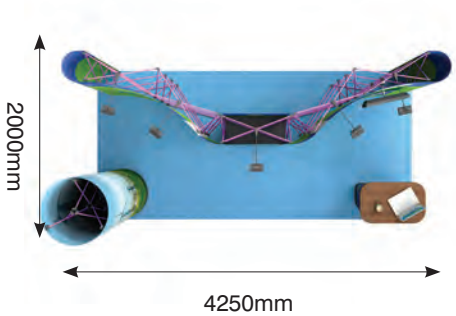
Frame construction	Graphic materials
4 x Stealth banners, 3 x flexible joining panels 1 x Linear (counter)	Pop-up PVC Foam board

> Assembly time
Less than 0.25 day

> Based on 1
person assembly

KG Hardware weight: 76kg

Hardware cases: 2 x counter bags, 1x standard 1050x550x160 bag
2 x padded bags for lights, 2 x 7.2kg Stealth cases



Pop-up displays are aptly named as they pop up and click into place using magnetic locking arms, graphics are attached using mag bars.

Displays can be as simple as you want or create large exhibition areas at a very cost effective price.

Connect three frames together with linking panels to create a flowing design complete with centre cut out and tv monitor.

For extra impact and height add a four quad Pop-up tower; for storage and shelving there is also a Pop-up counter available.

Frame construction	Graphic materials
3 x Pop-up frames and Pop-up tower	Pop-up PVC

> Assembly time
Less than 0.5 day

> Based on 1 person assembly

KG Hardware weight: 53kg

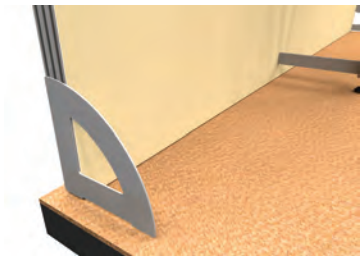
Hardware cases: 1 x 15kg Elipse moulded case
2 x 15kg Zeus moulded case

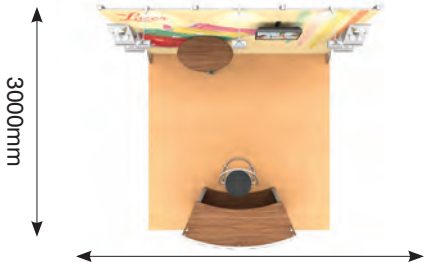
9-12m² stands

- Standard configurations from 9m² - 12m²
- Packed in bags or crates
- Self-assembly

>1 day

>2 people





Single back wall, open on three sides. A basic stand design to suit the cost conscious pocket whilst offering a smart stand solution.

The plain yet spacious back wall allows for literature shelving, poser table, tv monitor and lighting.

As there is only a single back wall this allows plenty of floor space for a counter and chair to welcome guests

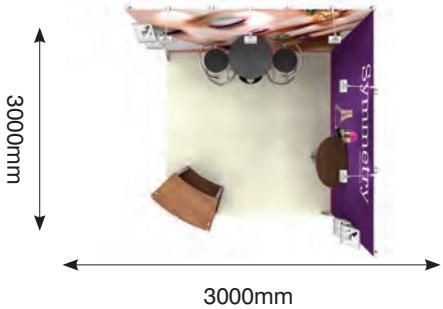
Frame construction	Graphic materials
Vector	Fabric
Linear	Pop-up PVC
Linear (counter)	Foam board panels
*The render above shows the Linear version	

> Assembly time 1.0 day

> Based on 2 person assembly

KG Hardware weight: 33kg approx

Hardware cases: 1 x 19kg, Counter bag 1 x 1.5kg, Graphic drum 1 x 2.82kg, Lighting bags 2 x 1.28kg



Open on two sides this stand has plenty of space for a bar table and stools, poser table plus a welcome counter.

The sharp design also allows for literature shelves on the edges of the stand and over panel lighting.

Frame construction	Graphic materials
Vector	Fabric
Linear	Pop-up PVC

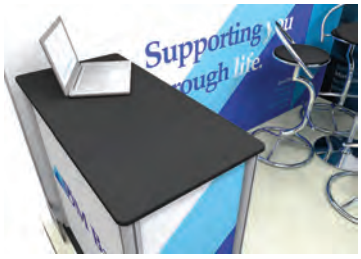
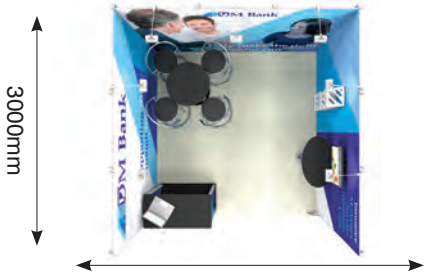
KG Hardware weight: 33kg approx

Hardware cases: 1 x 19kg, Counter bag 1 x 1.12kg, Graphic drum 1 x 2.82kg, Lighting bags 3 x 1.28kg

9-12m² Stands





A U shaped stand design with three walls and open at the front, offering a little more privacy from neighbouring exhibitors.

The design still allows space for table and four chairs, a poser table and a welcome counter.

The straight walls offer plenty of area for tv monitors and literature racking plus plenty of overhead lighting.

Frame construction	Graphic materials
Vector	Fabric
Linear	Pop-up PVC
Linear (counter)	Foam board panels

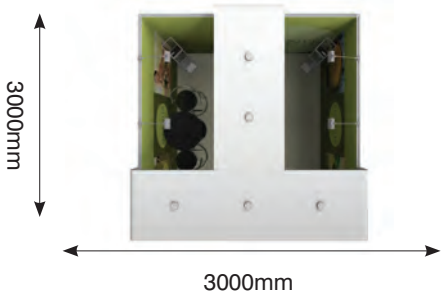
> Based on 2 people assembly

KG Hardware weight: 60kg approx

Hardware cases: 1 x 19kg, 1 x 6.28kg, Counter bag 1 x 1.12kg
Graphic drum 1 x 2.82, Lighting bags 4 x 1.28kg



Simple yet interesting design. Free-standing cube with literature dispensers and tv mounts.

Use striking colour for the back walls to draw the customer in. Open on one side with fanstastic lighting system integrated into the ceiling of the stand plus room for table and chairs.

Frame construction	Graphic materials
Vector	Fabric

*Maximum size 3000 x 3000mm

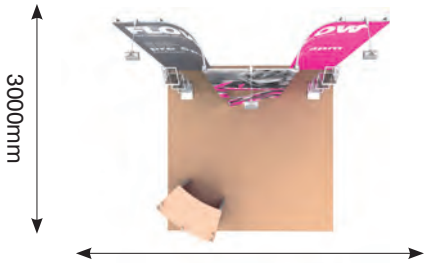
> Assembly time 1.0 day

> Based on 3 people assembly

KG Hardware weight: 180kg approx

Hardware cases: 2 x 19kg, Bags 2 x 0.64kg, Lighting bags 2 x 1.28kg
(No case included for acrylic panels)

9-12m² Stands



Simple design with one shaped back wall, allowing easy access onto your stand.

Straight and curved panels allow for interesting multi dimensional graphics, use lighting for the ultimate effect.

With plenty of space for accessorising and room for a welcome counter, this is a very cost effective design for when you have limited space.

Constructed from Linear vector with PVC graphics
