**NEW FOR
2020!**

YOUR IDENTITY IS UNIQUE WE'LL PROVE IT

In a competitive world, you need something that makes your unique identity stand out. The more choice you have, the easier it is to find the perfect solution. With thousands of items, in all kinds of colours, waiting to be decorated just the way you want, we give you all the inspiration you need to

create outstanding promotional items.

Our superbly broad range gives you options for every purpose and every preference at every price point. Browse through and see what inspires you. And contact us for any further information or guidance you need.

THOROUGH SUSTAINABILITY

We strive to operate with sustainability in mind at all times. The products we sell are manufactured in a responsible and ethical fashion and abide by national regulatory requirement norms in each of our markets. These very norms allow our production experts to identify any issues early on in the development phase that might not comply with the aforementioned norms and hinder our sustainable production methods.

Product compliancy is also monitored throughout the entire production life cycle. We work hard to meet our customers' high expectations and transparency requirements for the European markets. Up-to-date regulations are made readily available during the production life cycle ensuring products are compliant down to the very last detail. All products are subject to compliancy reviews prior to and after launch at both our own testing facilities and at third party testing labs.

Our solid quality-control methods ensure that the products you'll choose for your brand can be sold and used with confidence.

GOVERNANCE

Sustainability is an ethical imperative that we follow at all corporate levels. In partnership with our supply chain, we aim at continuous social, ecological and economic improvement in the sourcing of our products, the products themselves, our logistics chain, and our own production and branding facilities.

PRODUCTS

The way we assure product responsibility adds extra value to our promotional products. We are continuously improving our Product Portal, e.g. with information on compliance with European REACH and RoHS chemical requirements, as well as voluntary sustainability standards such as Oekotex certification.

CUSTOMER

For the customers of promotional goods, sustainable branding becomes increasingly important. Their credibility builds on transparency, reliable sourcing and sustainability of both the production process and the promotional product itself.

In partnerships for progress with our vendors and through engagement in multi-stakeholder initiatives, we aim to build ethical global supply chains. Through our factory audit program, we work towards enhanced social standards, improved working conditions for factory workers as well as environmental risk mitigation.

SOURCING

PRODUCTION

For our production facility and pan-European logistics center, environmental excellence is a win-win strategy. Its ISO 14001-certified environmental management aims at continuous improvement of environmental indicators. Long term investments are showing results, e.g. in the reduction of materials and energy consumption.

WHEN YOU ARE LOOKING FOR A PROMOTIONAL PRODUCT TO CARRY YOUR LOGO, YOU WANT IT TO BE COMPLIANT WITH EUROPEAN LAW AND IF POSSIBLE A MORE SUSTAINABLE OPTION THAN JUST A TRADITIONAL PLASTIC GIVE-AWAY.

But then the question arises, what is a more sustainable option? With thousands of promotional products available and a lot of discussions about what is sustainable and what is not, we have opted to look at our Green Concept from the Reduce-Reuse-Recycle perspective.

REDUCE: many promotional products are made of different types of plastics. By selecting products that have reduced plastic content, for instance because they are made of a mix of natural fibres and plastics, you are contributing to the reduction of the overall amount of plastic used.

REUSE: we believe this is one of the most important messages you can give with a promotional product. Reuse the items for a long time. More countries are banning single-use plastics like cups and cutlery. Reusable coffee mugs support this sustainable target and are a great canvas for your brand. The same applies to cotton or jute totes instead of plastic bags.

RECYCLE: we are actively developing products made of recycled material, like our Americano® coffee tumbler on the cover. This tumbler is made of the waste material of all Americano® tumblers that we produce, thus making our whole Americano production more sustainable! But you will also find recycled paper products, recycled glass, recycled PET umbrellas and bags, even pens made of recycled bottles. When looking at recycling, the possibility of recycling after use is also a factor that we look at.

So, are the Green Concept products in this catalogue 100% certified sustainable – no. Do they represent our suggestion for a more sustainable choice when you are looking for a promotional product – yes! We are constantly developing new products. For them to be compliant and sustainable is the first priority, but it is a process, it will go step by step. Our Green Concept will expand every year, continuously providing you with more choices for sustainable promotional products.

Enjoy!
