Specification Sheet – Graphics

FASTFRAME™ utilises Silicon Edge Graphics.

- » Fabric graphics are edged with a silicone strip which slots into the channel of the frame for easy installation
- » More cost-effective than alternative options and can be re-used multiple times
- » The graphics are printed using water based inks which is more eco-friendly
- » Seamless graphics can be applied to the connected frames for large displays
- » Graphics can be reproduced to deliver new messages

Polyester Stretch Graphics (PS)

Stretch textile fabric, 3mm silicone edge.

Black Back Graphics (BB)

Black back textile (black out), 3mm silicone edge.
