

PRODUCT GUIDE

ILLUMINOVA

INNOVATE WITH LIGHT

2025

Now there's a **brighter way**
to display.

illumiNOVA® is a **breathtakingly vibrant** illuminated Display Solution, ideal for adding visual interest.

Eye-catching

- » Rich, dynamic, glowing colours
- » Perfect for retail environments, showrooms, receptions and wayfinding
- » High quality dye-sublimated print
- » Powerful LED illumination

Flexible

- » Apply your own custom design
- » Option to use custom dimensions
- » Wall-mountable, free-standing or suspended formats
- » Double-sided graphic option for free-standing and suspended formats
- » Lighting system can be linked for 75mm frames and above
- » Easy to change Silicone Edge Graphics (SEG)

Practical

- » Pre-fitted plug-and-play LEDs
- » Sturdy aluminium frames
- » Easy to build, easy to dismantle for transportation
- » Optional carry bag
- » Easily replaceable SEG graphics

Make a glowing impression with **illumiNOVA**®

Discover an affordable, high-quality, semi-permanent lightbox solution – proudly made in Europe – that's ready to bring your indoor displays to life.

Light the way to **sustainability**

With sustainability a key theme for businesses and organisations, we're pleased to offer greener solutions.

- » Made from aluminium, an infinitely recyclable material
- » Powerful but energy-efficient LEDs, even in large formats
- » Energy-efficient drivers
- » Printed using water-based inks
- » Long product life due to build quality, reusability and graphic replacements

Enjoy an exciting range of **innovative features**

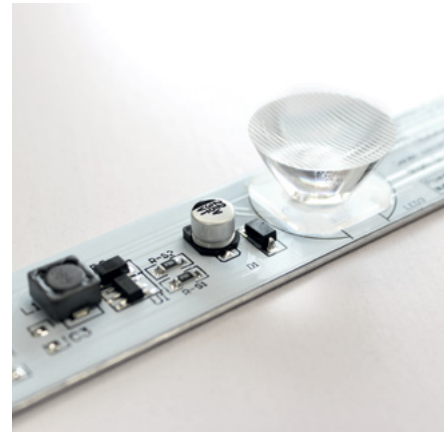

Graphics

- » Edgeless, replaceable SEG graphics
- » High quality dye-sublimated print for deep, vibrant, wide-ranging colours
- » Free-standing and suspended formats can be double-sided or backed with black fabric to prevent light leakage
- » Wall-mounted formats can be supplied with black backing

Lighting

- » Powerful LEDs and hardware work in harmony to deliver an even, consistent and bright light source across graphics
- » Low power consumption
- » Lighting system can be linked for 75mm frames and above, meaning only one electrical output is required
- » Cool to touch for rapid disassembly

Frames

- » Standard and custom-sized formats, with variable extrusion depths ensuring consistent strength at all sizes
- » Strong and attractive silver/grey anodised aluminium frames, with black or white powder-coated options available for 75mm and 125mm frames
- » Frames simply fasten together by Allen key for quick assembly and deployment
- » Free-standing frames supplied with steel feet
- » Carry bags available
